

Company Resources

Ata Marie has built a committed professional team of consultants with a diverse range of expertise. Experienced expatriates are complimented by strong teams of local expertise.

In its main operational base in Jakarta, a total of twelve permanent staff are employed including field foresters, remote sensing and GIS technicians, and field staff focussed on social surveys and community engagement. In addition, AMG have developed an extensive pool of associates and partners. This combination of in-house and external expertise means that Ata Marie can provide functional teams of people, tailored to the unique requirements of each client.

Field visit to Palembang, Jambi, Riau in Sumatera, Indonesia

“Knowledgeable and experienced professionals, providing practical and effective solutions to real world problems.”

Background

Established in 2007, Ata Marie Group specializes in providing technical & management services to the forestry and agri-business sectors. We have an extensive track record and have worked in 20 countries across Asia, the Pacific and Africa.

Ata Marie brings together a multi-skilled, multi-disciplined team of experts that have considerable experience and knowledge of the Forestry and Agricultural sectors. From a core base of Forestry and Agri-business resource skills, Ata Marie has grown to cover all aspects of these industries from technical and financial valuations, IT solutions, environmental assessments, community engagement, raw material growth yield and supply analysis and direct operational management.
