INTERPOL

Global Forestry Crime Conference
INTERPOL General Secretariat Lyon, France
04-06 September 2018

Ata Marie Group

- Approximately 200 delegates, over 50 different countries worldwide.
- Government, Civil society and Private sector were represented.
- Ata Marie and other select companies and organizations presented tools and services to assist authorities to address forestry crime.

Ata Marie Group

INTERPOL implements 5 initiatives in the environmental arena:

- **Project LEAF** (Law Enforcement Assistance for Forests) an initiative against illegal logging and related crimes.
- **Project Scale** is an INTERPOL project to support member countries in identifying, deterring and disrupting transnational fisheries crime.
- **Project Eden** is an INTERPOL initiative to combat the illegal trade in waste, particularly electronic waste.
- **Project Predator** works to enhance governance and law enforcement capacity for the conservation of Asian big cats and other wildlife species.
- **Project Wisdom** The illegal ivory trade is the biggest threat to elephants in the wild.

Ata Marie Group

The INTERPOL Global Forestry Crime Conference focused on 5 main topics.

1. Better coordinate global forest enforcement with donor coordination.
2. Monitoring timber along the supply chain – wood identification and other tools.
3. There is a very strong focus on forest fires and law enforcement
4. Forest Law Enforcement – illegal logging and illegal timber trade.
5. Compliance Certification and Covert Detection Systems.

Ata Marie Group

Ata Marie presented its systems that deploy digital transformation services for Government and Industry.

Our presentation was designed to show how AMG's ERP systems could assist in the area specifically related to **Project LEAF** (the initiative against illegal logging and related crimes).

AMG's Systems are able to:

- Support criminal intelligence analysis
- Provide analytical support on the movement of illegal timber
- Provide case-specific investigative and technical support
- Support National Environmental Security Task Forces
- Enhance information and intelligence sharing
